

# Our Program

Elementary: 5-week course; ages 3-6

Discovery: This course is ideal for children that have a creative flare, and are curious to try out different things. Our workshops are designed to create scope for exploration and development within a safe and playful environment.

The basic elements of music including rhythm, pitch, harmony and texture are learnt. Using xylophones, glockenspiels, shakers, and drums, children learn to engage with each other in a deep and intellectual level.

The principle of imitation is explored, through which children learn the foundations of rhythm and pitch, developing essential listening skills and motor memory.

The entire class is involved, allowing for everyone to participate and contribute to the session.

Our all-inclusive workshops rotate a variety of instruments and roles across the group, giving every individual the opportunity to explore a new facet of musicality.
